Capture their attention,

Delta Science Modules® are 59 comprehensive science kits for grades K-8. Students investigate key science topics through a powerful combination of hands-on activities and reading. The modular series design allows you to select content to tailor your science program to meet students' needs

and state standards. Kits cover topics such as plant and animal life, weather, rocks and minerals, the solar system, electricity and magnetism, and simple machines. An easy-to-use Teacher's Guide and content-rich Delta Science Readers (and Big Books for primary grades!) are included in the equipment and materials kit. Aligned with the National Science Education Standards, Delta Science Modules also correlate with major textbook series.

59 Essential Topics
