**Delta Education**  
*...because children learn by doing.<sup>®</sup>*

# Guarantee

Delta Education is the exclusive distributor of the FOSS products. We work closely with the Lawrence Hall of Science in the manufacturing of the FOSS products to ensure all component parts meet or exceed the specifications of the FOSS program. You can be sure that these products will work successfully with each FOSS investigation.

Delta Education guarantees all of its products. However, if for any reason you are not satisfied with our products, please call us within 30 days for a Return Authorization Number. You are responsible for return shipping charges. A restocking fee of up to 15% may apply. Please call Customer Service at 1-800-258-1302 for information.

## Ordering Information

### On Every Order

Please include the following information:

- **Purchase Order Number** (not necessary with prepaid orders).
- **Method of payment** for orders (check, money order, MasterCard, Visa, American Express or Discover—please include cardholder's name and address, credit card number, and expiration date).
- **Bill to** customer name, telephone number, and address, complete with zip code.
- **Ship to** customer name, telephone number, and address complete with zip code.
- A **contact name and telephone number** so that we may call you if we have a question concerning your order.
- **Any special shipping instructions.**

An order form is available on the last page of this catalog. Please use Delta Education item numbers and descriptions when ordering.

### Our Pricing Policy

Prices are subject to change without notice. Although we make every effort to ensure our product specifications and pricing are 100% accurate, we are not responsible for typographical errors and we cannot guarantee third party pricing.

### Shipping and Handling

#### Standard Delivery

US	12% of your order
International	30% of your order

#### Minimum Charge

Continental US	\$5.00
AK, HI and Int'l	\$15.00

Standard delivery is UPS Ground or equivalent. Overnight, second-day, and other shipping methods are available at an additional cost. Please ask your customer service representative for details.

### Terms

Payment is due upon receipt of invoice. Partial shipments are invoiced separately and payable upon receipt of invoice

### Missing Items

Please check all shipments carefully. Make sure you receive the correct number of boxes, in good condition before signing for shipments. Report any discrepancies or damages within 10 days of delivery to our Customer Service Department.

### Living Materials

Items marked with an asterisk (\*) include Living Materials Cards. Please allow 3-4 weeks after you send in your card for delivery of living materials. Living materials are not returnable. Should your living materials not arrive alive and healthy, you must notify Customer Service within 48 hours after arrival. In the event of inclement weather your shipment could be delayed to ensure quality product. Living materials can only be shipped in the 48 contiguous states.

#### Additional Shipping Charges for Live Items

1-3 items	\$12.50
4-5 items	\$22.00
6 or more items	\$30.00

**NOTE: All shipments contain more organisms than you will need for your activities. If a few organisms are dead on arrival, be sure to count the remaining organisms to determine if you have enough for your activities before calling for replacement.**

**Order 24 hours a day:**

**call 1-800-442-5444**

**fax 1-800-282-9560**

**www.DeltaEducation.com**

**For program information,**

**call Customer Service**

**1-800-258-1302**

**(Mon-Fri 8am-6pm EST)**

	Brine shrimp eggs	C	x			x								
<b>Food and Nutrition</b>		Bakers yeast	C							x				

D = available from Delta Education on Live Organism Coupon

C = consumable item; 2 class uses included in the kit

\* Indicates number of organisms supplied when purchased from Delta Education coupons.

\*\* The purchase of Land Snails (*Helix aspersa*) is regulated by the USDA. Only the states of AZ, CA, NM, TX, and WA allow the transport of land snails (permit required). Please call Delta Education for more information. For other states, go to [www.DeltaEducation.SchoolSpecialty.com](http://www.DeltaEducation.SchoolSpecialty.com) for alternate activities.

# FOSS Middle School Program

The Full Option Science System for Middle School builds on its success as an elementary hands-on science program by creating a developmentally appropriate program specifically for grades 6-8. Based on research on how children think and learn, the FOSS developers have combined hands-on science with a strong technology component to help meet today's initiatives and prepare students for tomorrow's challenges. This program is designed to provide a variety of activities and strategies to keep the developing adolescent motivated.

GRADE LEVEL	LIFE	PHYSICAL AND TECHNOLOGY	EARTH AND SPACE	THINKING PROCESSES
6-8	<i>Human Brain and Senses</i> Populations and Ecosystems Diversity of Life	Electronics Chemical Interactions Force and Motion	Planetary Science Earth History Weather and Water	Inferring Relating Organizing Comparing Communicating Observing

## EACH COMPLETE COURSE KIT INCLUDES:

- **Teacher Guide** which includes science background information, detailed lesson plans, assessments and resource lists.
- **Student Equipment Kit** with enough materials for 5 consecutive classes of 32 students.
- **1 Lab Notebook** containing reproducible organizers and student sheets.
- **32 Resource Books** containing non-fiction student readings, images, and data.
- **5 CD-ROMs** containing interactive simulations, movies, and additional teacher resources and information.

*Lab Notebooks, Resources books, and CD-ROMs are also sold separately. For information, log on to [www.DeltaEducation.com](http://www.DeltaEducation.com) or call 1-800-258-1302.*

## LIFE SCIENCE

### **Human Brain and Senses**

**742-5042-WW \$1,810.00**

Students investigate how the brain and senses acquire, interpret and respond to information (stimuli) in the environment. An emphasis on vision and touch leads to investigations of the structure and function of the sensory organs and the brain itself. Imaging techniques (MRI and EEG) are used to reveal brain anatomy and activity. Students also explore learning, memory, and sensory dysfunction.

*Concepts: structure/function, perception, stimulus/response, learning, neurotransmission.*

### **Populations and Ecosystems**

**742-5041-WW \$2,500.00**

Students raise populations of organisms to discover population dynamics and interactions in a range of conditions. They learn that food is the source of energy used by all life forms in all ecosystems to conduct life processes. Reproduction, including limiting factors, heredity, and natural selection are explored as ways to understand both the similarity and the variation within and between species.

*Concepts: species, population, community, ecosystem, food chain, food web, limiting factor, biotic environment, abiotic environment, genetics, trait, natural selection.*

### **Diversity of Life**

**742-5045-WW \$2,235.00**

Students observe and maintain protists, plants, and animals in the classroom and study their characteristic features. The study progresses from macroscopic to microscopic observation to discover the fundamental unit of life, the cell. Students then investigate organism subsystems and behaviors, and consider their diversity of adaptive structures and strategies.

*Concepts: cell, tissue, organism, structure, function, behavior, adaptation, system, interaction.*

# FOSS Middle School Program

## PHYSICAL SCIENCE

### **Electronics** 742-5046-WW \$2,450.00

Students will learn fundamental electrical circuitry and basic electronic principles. They make simple and complex circuits, quantify electrical interactions and properties (current, voltage, resistance) using a digital multimeter, and discover how different components affect circuits (resistors, diodes, LEDs, capacitors, transistors). They make and read schematics, and construct solid-state devices.

*Concepts: circuit, Ohm's law, component, multimeter, digital, energy potential, current, resistance.*

### **Chemical Interactions** 742-6445-WW \$2,775.00

Students learn the atomic theory of matter and use this notion to think theoretically about familiar materials and chemical interactions, such as the behavior of oil and water, rusting, dissolving of common materials, plastics and melting ice with salt. The history of the development of the periodic table of the elements will guide an inquiry into the properties of the elements found on Earth.

*Concepts: atom, molecule, reaction, oxidation, element, solution, and concentration.*

### **Force and Motion** 742-6440-WW \$2,439.00

Students investigate linear motion, including position, and several aspects of change of position - distance, speed, and acceleration. They investigate fundamental forces (gravity and electromagnetism) in familiar environments, such as pushes, pulls, impacts, and falls. Interaction and outcomes are represented graphically to help students think mathematically about their observations. Investigations of opposing forces and additive forces help students develop the idea that a net force on an object produces motion. An object in motion has momentum, and momentum is conserved. Students acquire the most fundamental and most important understanding about the interplay between force and motion: Force = mass X acceleration.

*Concepts: force, position, distance, motion, acceleration, speed, change, gravity, mass, technology.*

## EARTH SCIENCE

### **Planetary Science** 742-5039-WW \$1,705.00

Students study the Earth as a celestial object before progressing to lunar science and lunar exploration, and then the solar system. Activities explore the origin of the Moon, celestial motions, Moon phases, lunar geology, cratering processes, imaging technologies, scaling and space exploration.

*Concepts: solar system, planet, satellite, crater, atmosphere, scale, orbit, revolution, rotation, day and night, interaction, change.*

### **Earth History** 742-5038-WW \$1,810.00

Students investigate rocks and fossils to discover clues that reveal Earth's history. They explore sedimentary rocks and fossils from the Grand Canyon, consider the processes that created them, and compare evidence discovered in the rocks to present-day geologic processes and contemporary life forms. The students use these data to make inferences about past organisms, environments, and events that occurred on Earth over its history.

*Concepts: erosion, deposition, sedimentation, lithification, index fossil, rock formation, landform, prehistoric environment, evidence.*

### **Weather and Water** 742-5037-WW \$1,865.00

Students investigate the properties of Earth's atmosphere and the processes that produce weather, including energy transfer, atmospheric pressure, and water cycle. They study principles that govern temperature, wind, humidity, precipitation, and severe weather. Students collect and analyze local and global weather data using instruments and reports from various media. They investigate fresh water as a vital resource. *Concepts: heat, radiation, conduction, convection, density, pressure, condensation, water cycle, drainage basin, climate.*

## PROFESSIONAL DEVELOPMENT AND SUPPORT SERVICES

**FOSS and Delta Education are committed to supporting science educators with unrivaled teacher support, high quality implementation, and continuous staff development training.**

### **Evaluate FOSS in your school, district, or classroom.**

#### **Program Presentations**

Regional Managers are available to show you how FOSS helps meet your science curriculum needs. The presentation provides an overview of the program and its components. You have an opportunity to look through the Teacher Guide, work with the materials doing an investigation, read the *FOSS Science Stories*, share materials management ideas, and discuss implementation and training.

#### **Purchase Evaluation**

Your Regional Manager may send select sample materials for you to use and preview. For districts considering adopting FOSS, your Regional Manager can arrange a pilot of the materials with your district science coordinator. Pilot programs provide an opportunity to use program materials in your classroom for an extended time.

### **Delta Science Resource Service<sup>SM</sup>**

Delta Education offers you a convenient way to manage your science kits: the Delta Science Resource Service<sup>SM</sup>. The service provides timely pickup, replenishment, and delivery of teacher-ready kits based on a carefully developed, predetermined kit rotation schedule. "Teacher-ready" means that most materials have been cut, weighed and separated; most teacher-provided items and measurement tools are already included; and, Living Materials are scheduled to arrive automatically as needed. All materials are certified for accurate investigation results and based on the most up-to-date copyright versions of each module.

### **Correlations**

Correlations to the National Science Education Standards (NSES), Project 2061 Benchmarks, and many state and district-specific science standards are available online at [www.deltiaeducation.com](http://www.deltiaeducation.com).

### **Websites**

#### **[www.DeltaEducation.com](http://www.DeltaEducation.com)**

Provides program information, module descriptions, correlations with national and state science standards, a national workshop schedule, Material Safety Data Sheets, and online ordering.

#### **[www.lhsfoss.org](http://www.lhsfoss.org)**

Provides a direct link to the Lawrence Hall of Science and the FOSS developers. Program information, research, and links to related sites may also be found here.

### **FOSS Newsletter**

A biannual newsletter is available FREE to all FOSS educators. Mailed every spring and fall, the newsletter includes program news and information, helpful hints, teaching strategies, along with software and book reviews related to the FOSS modules. It also provides a forum for teachers to ask specific questions about the modules, and to share success stories from their own classroom. You can access the FOSS Newsletter electronically at [www.DeltaEducation.SchoolSpecialty.com](http://www.DeltaEducation.SchoolSpecialty.com) or contact Delta Education to have your name added to the mailing list: [Jason.Crowell@SchoolSpecialty.com](mailto:Jason.Crowell@SchoolSpecialty.com)

### **Implementation and Inservice Training FREE with minimum purchase**

To prove our commitment to teachers, we will provide one day of customized professional development training FREE with every purchase order of \$20,000 or more FOSS modules. For details and information, contact your Regional Manager. *Offer limited to purchases of complete FOSS modules. Offer does not apply to orders of line items and refill kits.*

Additional inservice training is available upon request. Each training session is customized to meet your particular needs. The cost includes all consultants' fees and travel expenses, plus any kits or materials. Contact your Regional Sales Manager or Delta Education to discuss your needs and schedule a workshop.

### **National and Regional Institutes and Workshops**

FOSS and Delta Education host introductory and advanced workshops around the country each year. These are typically scheduled in conjunction with the National Science Teachers Association's (NSTA) regional and national conventions. Institutes and workshops are designed for all educators—teachers and administrators—who are interested in finding out more about FOSS, the research and development behind the program, and to begin networking with other FOSS users. These programs are offered FREE, however, registration is required. Travel and lodging are at your own expense. For dates and locations, please contact Delta Education.

For more information about any of these services, call Delta Education at 1-800-258-1302 (Mon-Fri 8am–6pm EST) or look on the web at [www.DeltaEducation.com](http://www.DeltaEducation.com).

See the FOSS product catalog or visit us online to learn more.

## FOSS K-8 Program

GRADE LEVEL	FOSS K-8 Program				ALTERNATIVE MODULES
Grades 6 – 8	Life Science		Physical Science and Technology		Earth and Space Science
	Human Brain and Senses		Electronics		Planetary Science
	Populations and Ecosystems		Chemical Interactions		Earth History
	Diversity of Life		Force and Motion		Weather and Water
Grades 5 – 6	Life Science	Physical Science	Earth Science	Scientific Reasoning and Technology	Living Systems
	Food and Nutrition	Levers and Pulleys	Solar Energy	Models and Designs	
	Environments	Mixtures and Solutions	Landforms	Variables	Water Planet
Grades 3 – 4	Human Body	Magnetism and Electricity	Water	Ideas and Inventions	Matter and Energy
	Structures of Life	Physics of Sound	Earth Materials	Measurement	Sun, Moon, and Stars
Grades 1 – 2	Life Science		Physical Science		Earth Science
	New Plants		Solids and Liquids		Air and Weather
	Insects		Balance and Motion		Pebbles, Sand, and Silt
Kindergarten	Life Science		Physical Science		
	Trees	Animals Two by Two	Wood and Paper	Fabric
