

Finding Common Factors

List all of the common factors for each pair of numbers.

1 24 and 48

2 25 and 48

3 26 and 48

4 27 and 48

5 28 and 48

6 What do you predict the common factors of 95 and 96 to be? Explain your prediction and then check to see if you found all of the common factors.
