Perimeter Formulas

You will need a centimeter ruler.

Imagine connecting these points to form figures, measured to the nearest centimeter.

Write the letters of the vertices (corners) of each figure.

A •

B
•

• *E*

•
C

•
D

---

1 A figure that includes **point *A*** and has a perimeter of **18 cm.**   *ABC*

---

2 A figure that includes **point *B*** and has a perimeter of **27 cm.**   _____

---

3 A figure that includes **point *C*** and has a perimeter of **26 cm.**   _____

---

4 A figure that includes **point *D*** and has a perimeter of **20 cm.**   _____

---

5 A figure that includes **point *D*** and has a perimeter of **25 cm.**   _____
