

Stories with Fractions

- 1 In the shaded spaces below, three fractions are listed in order from smallest to largest.

In the white spaces between them, write new fractions so that all five fractions are still in order.

$\frac{1}{5}$		$\frac{1}{4}$		$\frac{1}{3}$
---------------	--	---------------	--	---------------

- 2 Here are five fractions.

$$\frac{9}{7} \quad \frac{3}{5} \quad \frac{7}{6} \quad \frac{3}{8} \quad \frac{3}{4}$$

- In the shaded spaces below, list them in order from smallest to largest.
- In the white spaces between them, write new fractions so that all nine fractions are still in order.
