

Using Other Models to Multiply Fractions

Make up fractions to multiply and shade the dot sketches. Complete the number sentences.

<p>1</p>  <p style="text-align: center;">$\boxed{\frac{\quad}{4}} \times \boxed{\frac{\quad}{5}} = \boxed{\quad}$</p>	<p>2</p>  <p style="text-align: center;">$\boxed{\quad} \times \boxed{\quad} = \boxed{\quad}$</p>
<p>3</p>  <p style="text-align: center;">$\boxed{\quad} \times \boxed{\quad} = \boxed{\quad}$</p>	<p>4</p>  <p style="text-align: center;">$\boxed{\quad} \times \boxed{\quad} = \boxed{\quad}$</p>

Make up your own dot sketches and number sentences to show multiplication of fractions.

<p>5</p> <p style="text-align: center;">$\boxed{\quad} \times \boxed{\quad} = \boxed{\quad}$</p>	<p>6</p> <p style="text-align: center;">$\boxed{\quad} \times \boxed{\quad} = \boxed{\quad}$</p>
