

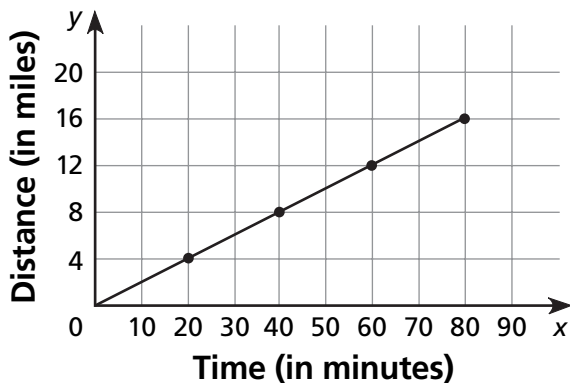

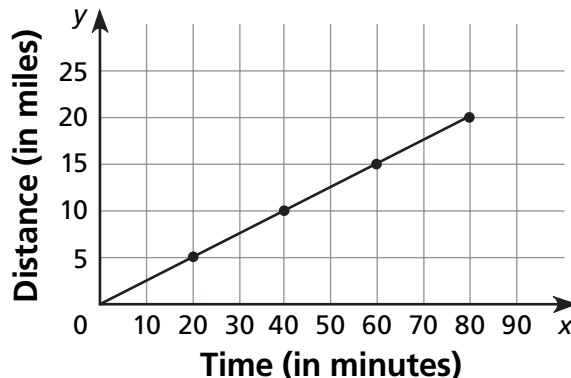

# Graphing Change Over Time

Paul and Andrea rode their bicycles starting from the park entrance at 12:00. These graphs show how far they went.

**PAUL'S BIKE TRIP**

**ANDREA'S BIKE TRIP**

1 Who rode faster? Explain how you know.

---

---

---

2 How far ahead was that person at the end of the hour?

---

3 If they kept going at the same speeds shown on the graphs, what time was it when one rider was 6 miles ahead of the other? Explain.
